My employment with the Standard Oil had nothing to do with anything in which the Pederal Government was interested.

The employment was not to defend the company, but to assist in executing the orders of the courts. When I accepted the employment it could not be foreseen that the Standard Oil would become the object of Federal legislation.

I was one of the sub-committee which considered the Elkins bill. and after making amendments which strengthened it, reported it to the Senate, where it passed. That statute has been put to the
